

First International Symposium on Ultrafast 2D NMR

September 26th 2013

Universidade de Santiago de Compostela, Spain

Aula Magna, Faculty of Chemistry

Program

09:00 AM - 09:15 AM	Opening Remarks
09:15 AM - 10:00 AM	Principles of Ultrafast 2D NMR <i>Lucio Frydman, Weizmann Institute of Science, Israel</i>
10:00 AM - 10:45 AM	Different Attempts to Monitor Organic Reactions in Real-time <i>Antonio Herrera, Universidad Complutense de Madrid, Spain</i>
10:45 AM - 11:15 AM	Coffee Break – sponsored by <i>Mestrelab</i>
11:15 AM – 12:00 AM	Analytical Ultrafast 2D NMR <i>Patrick Giraudeau, Université de Nantes, France</i>
12:00 AM - 12:45 PM	Developments in Hyperpolarized Ultrafast NMR <i>Lucio Frydman, Weizmann Institute of Science, Israel</i>
12:45 PM - 02:30 PM	Free lunch
02:30 PM - 04:00 PM	Setting Up Ultrafast 2D NMR from Scratch on a Bruker Spectrometer (Live demonstration) <i>Patrick Giraudeau, Université de Nantes, France</i>
04:00 PM – 04:30 PM	Coffee Break – sponsored by <i>Mestrelab</i>
04:30 PM – 06:00 PM	Setting Up Ultrafast 2D NMR from Scratch on an Agilent Spectrometer (Live demonstration) <i>Greg Olsen, Weizmann Institute of Science, Israel</i>

Organizing Committee

Lucio Frydman, Weizmann Institute of Science, Israel
Patrick Giraudeau, Université de Nantes, France (chair)
Antonio Herrera, Universidad Complutense de Madrid, Spain
Manuel Martin-Pastor, Universidad de Santiago de Compostela, Spain
